

1000 Years of Muslim Science

10:29 pm, Thu 4 Feb 2010

7 Comments 

London's Science Museum has [launched an exhibition](#) which traces the story of a thousand years of science from the Muslim world - a story which is all too often ignored. The [1001 Inventions](#) exhibition looks at how many modern inventions can trace their roots back to Muslim civilisation.

Action Alert! [Thank the Science Museum](#) for highlighting the Muslim contribution to science and ask them to include this in their permanent displays.
